

Keep both versions. Choose the result.

Aster draft · synthetic concurrent-edit case · nothing overwritten

Base · saved r2

Server · newer r3

This device · based on r2

Put the evidence beside the decision.

Put the evidence beside the decision.

Keep the evidence beside the decision.

What context do you usually have to go looking for during a review?

Which source is usually missing from a handoff?

What context do you usually have to go looking for during a review?

Composed result preview

Use this device’s opening and the server’s ending. Unchanged paragraphs retain r2’s text and evidence.

Preview new revision

Both branches remain in history. Saving creates a new revision and reopens affected review.

Keep both and return later
