

One exact release

Future qualified-route fixture · no real account action

ContentPublicationOutcomes

Release package RP2 · draft r2

Put the evidence beside the decision.

The notes, comparison and release checklist now sit beside the decision they support.

We have not measured a speed improvement.

What context do you usually have to go looking for during a review?

Text-only · exact reviewed body

Inspect sources, package and operator approval ›

Destination and route

Owner · personal LinkedIn identity

Identity and publisher role verified in this fixture

Route: connected dispatch

Other qualified routes: manual / provider schedule

Allowed window

Thu 15 Oct 2026 · 14:00–17:00 · America/New_York

No later dispatch without a new decision.

Human operator approval: RP2 · fixture receipt

Claims / media / eligibility: validated for this fixture

Permission scope: one release, this identity and window

Admission returns an actual queue/provider receipt. It is not publication evidence.
