

Nooch core visual target

01 Establish setup and preferences

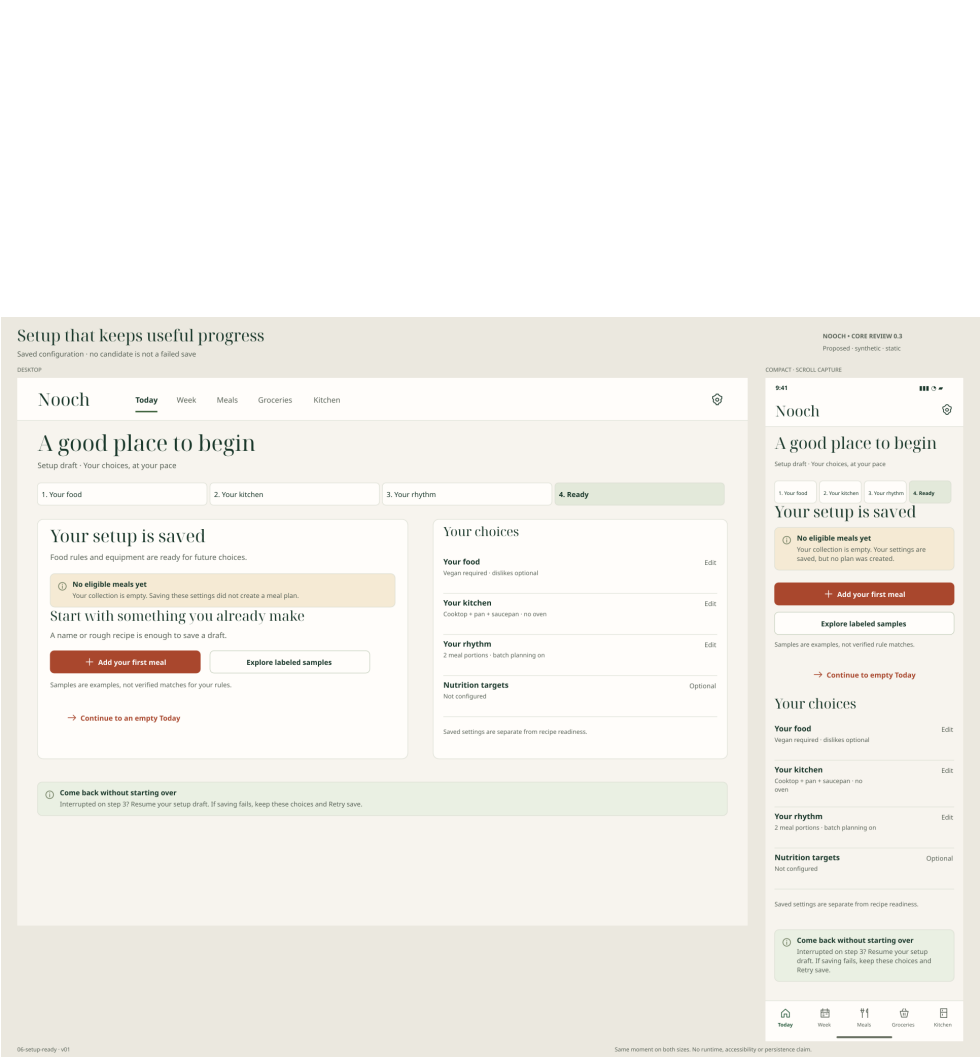

Start with purposeful setup, preserve useful saved progress, and distinguish temporary priorities from durable rules.

PROPOSED TARGET Registered NDL003 core 30 at v01. Accepted Today v02 is separately retained; accepted behavior selections take precedence over incidental fixture content or copy. NF010 external cooking r3 is not adopted.

OVERVIEW SCALE Click any image or its source link for full-resolution paired UI evidence. This PDF does not record owner pixel acceptance.

setup-ready@v01

Setup that keeps useful progress - Saved configuration / no candidate is not a failed save

Nooch core visual target

02 Match equipment and discover meals

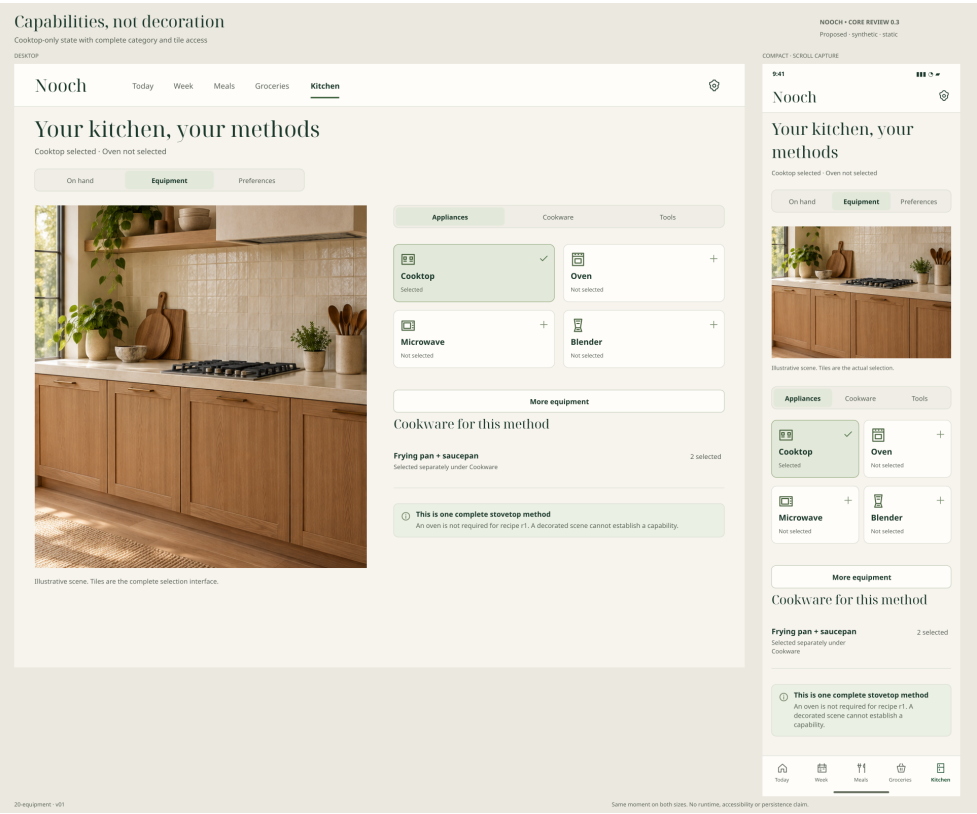

Equipment capabilities constrain choices. Discovery retains its meal destination and keeps distinct actions explicit.

PROPOSED TARGET NDL003 core 30 at v01; Today v02 separately retained; accepted behavior selections take precedence.

OVERVIEW SCALE Click any image or its source link for full-resolution paired UI evidence. This PDF does not record owner pixel acceptance.

equipment@v01

Capabilities, not decoration - Cooktop-only state with complete category and tile access

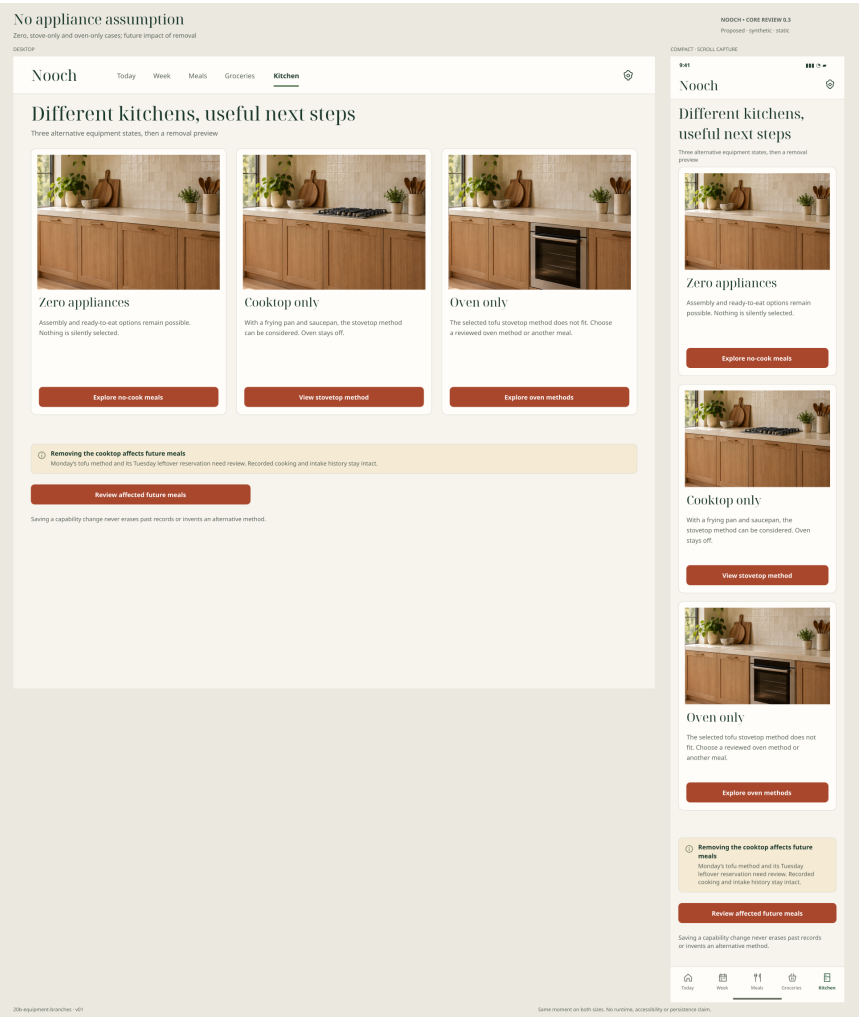

Open original paired image

SHA256 57adb7e2db048616c9b3...

equipment-branches@v01

No appliance assumption - Zero, stove-only and oven-only cases; future impact of removal

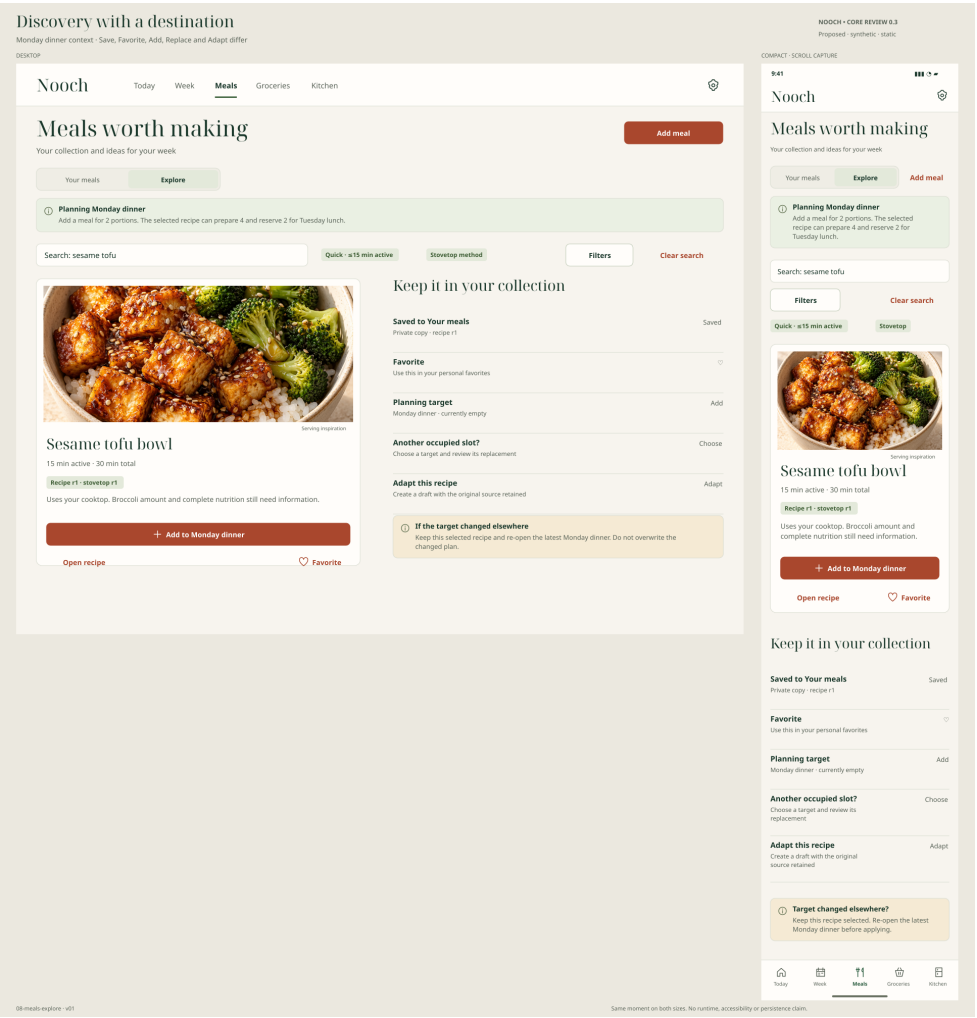

Open original paired image

SHA256 ce408ce507125c12013f...

meals-explore@v01

Discovery with a destination - Monday dinner context / Save, Favorite, Add, Replace and Adapt differ

Open original paired image

SHA256 49f5c32e97687940e6cf...

Nooch core visual target

03 Capture and complete a recipe

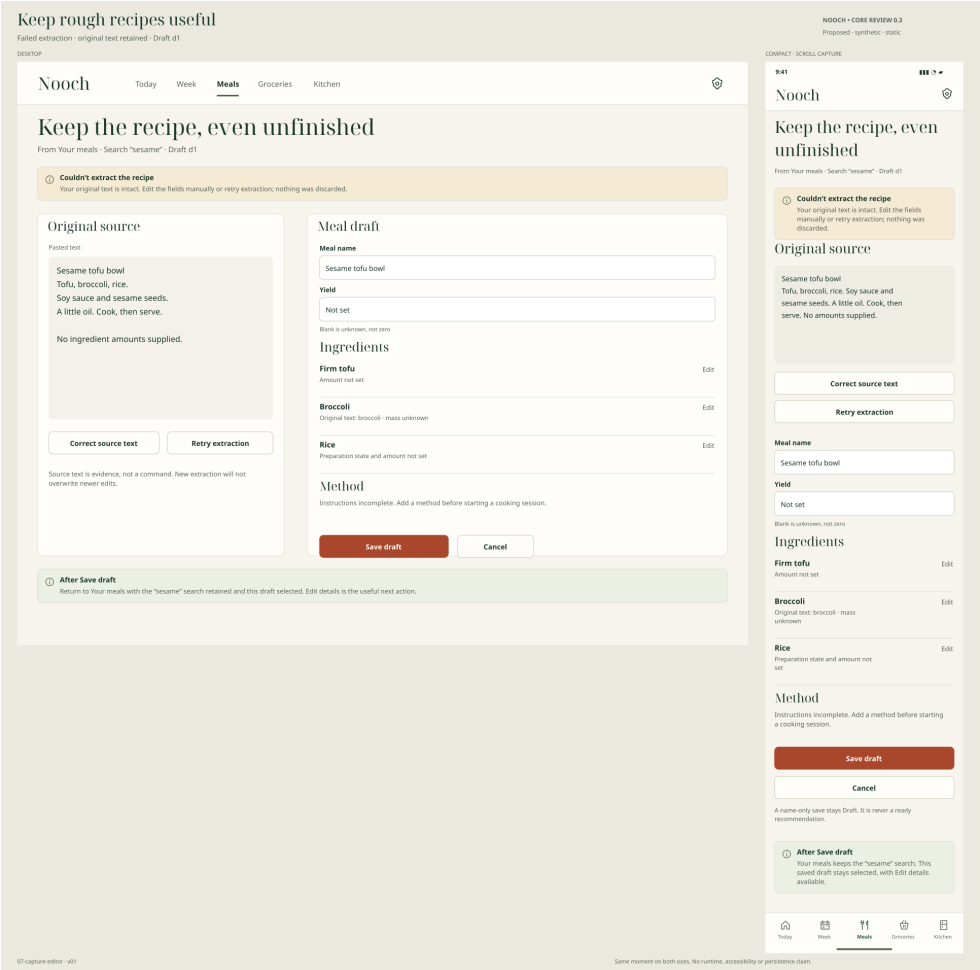

Preserve rough text and saved-draft context, then complete one coherent canonical recipe revision.

PROPOSED TARGET NDL003 core 30 at v01; Today v02 separately retained; accepted behavior selections take precedence.

OVERVIEW SCALE Click any image or its source link for full-resolution paired UI evidence. This PDF does not record owner pixel acceptance.

capture-editor@v01

Keep rough recipes useful - Failed extraction / original text retained / Draft d1

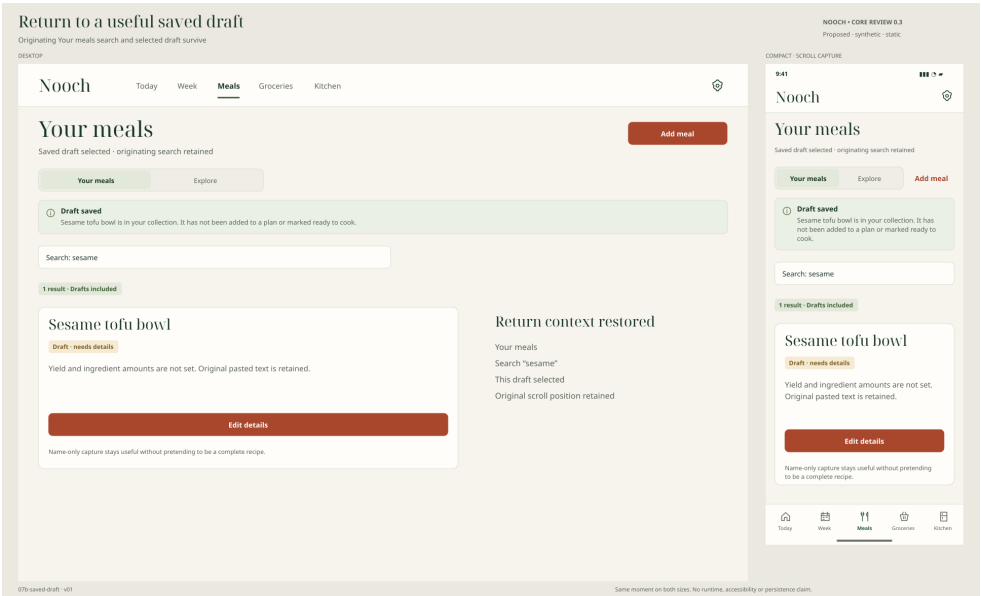

Open original paired image

SHA256 b48aaea1caa5200cb8f2...

saved-draft@v01

Return to a useful saved draft - Originating Your meals search and selected draft survive

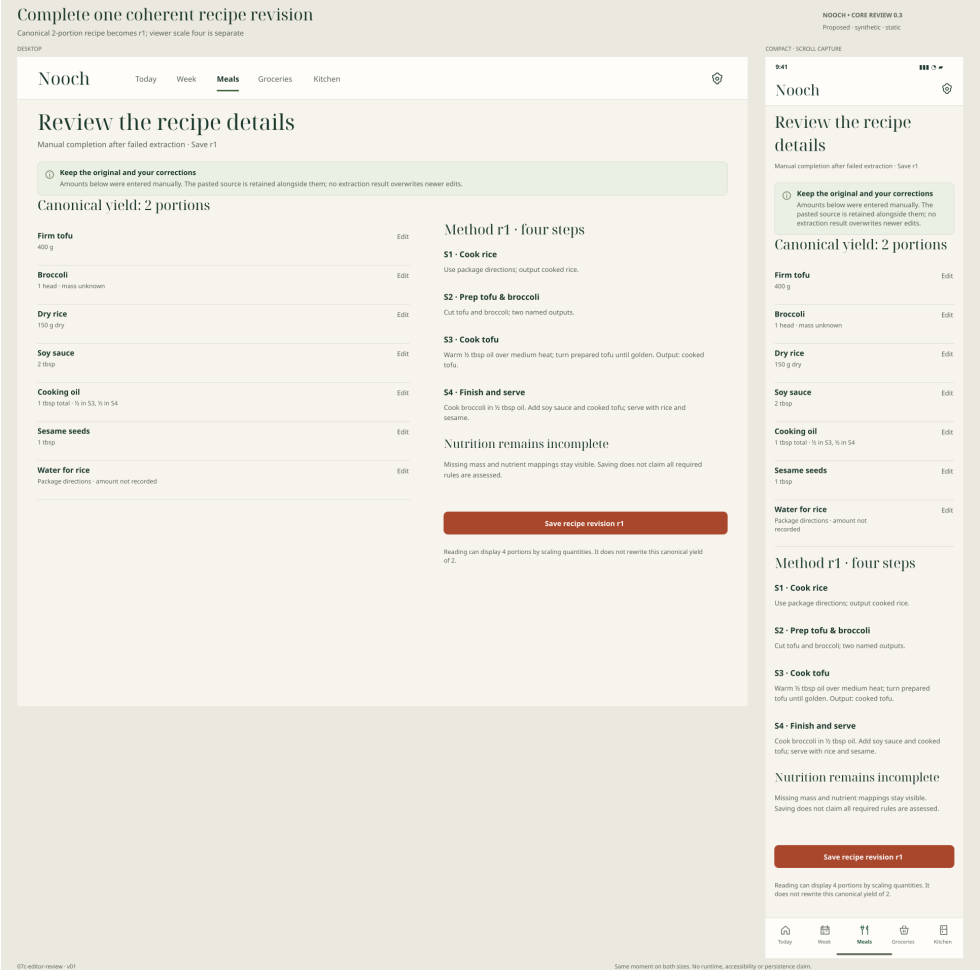

Open original paired image

SHA256 7ffba9936b437942f2e2...

editor-review@v01

Complete one coherent recipe revision - Canonical 2-portion recipe becomes r1; viewer scale four is separate

Open original paired image

SHA256 404cba231047b29c3ec3...

Nooch core visual target

04 Read the recipe and its evidence

Reading and map views describe the same method. Nutrition, notes and serving scale remain inspectable.

PROPOSED TARGET NDL003 core 30 at v01; Today v02 separately retained; accepted behavior selections take precedence.

OVERVIEW SCALE Click any image or its source link for full-resolution paired UI evidence. This PDF does not record owner pixel acceptance.

recipe-reading@v01

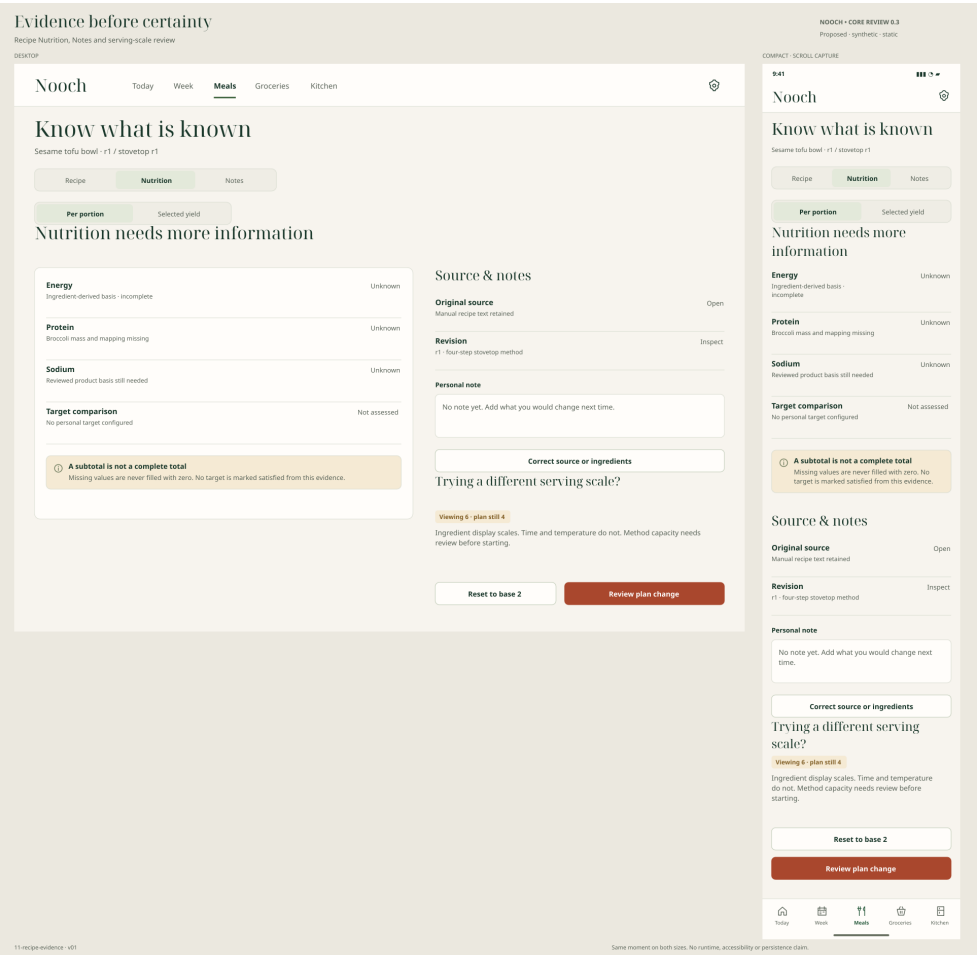

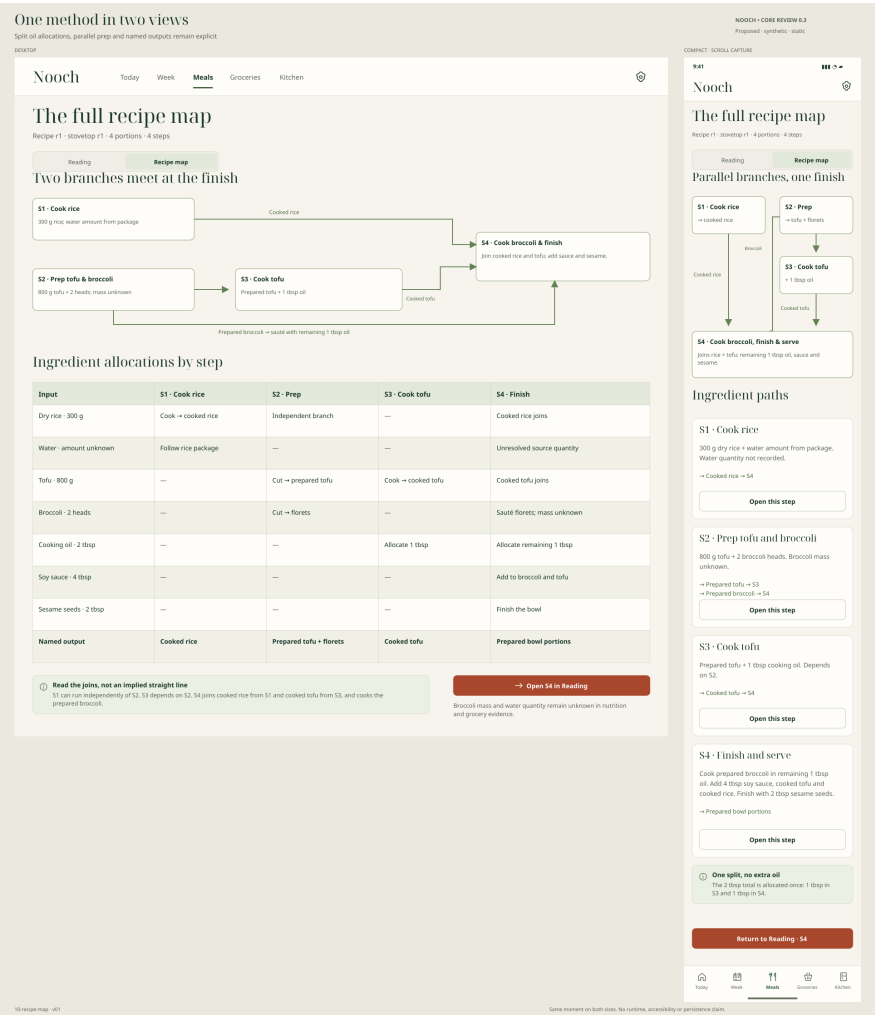

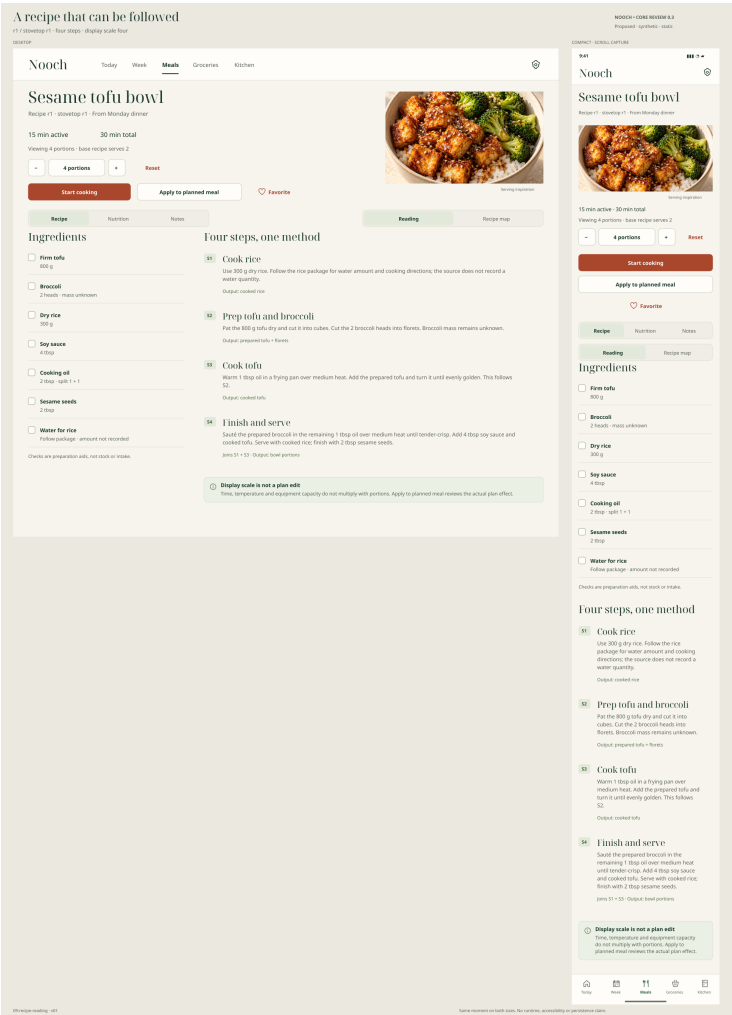

A recipe that can be followed - r1 / stovetop r1 / four steps / display scale four

recipe-map@v01

One method in two views - Split oil allocations, parallel prep and named outputs remain explicit

recipe-evidence@v01

Evidence before certainty - Recipe Nutrition, Notes and serving-scale review

Nooch core visual target

08 Recover purchases and track stock

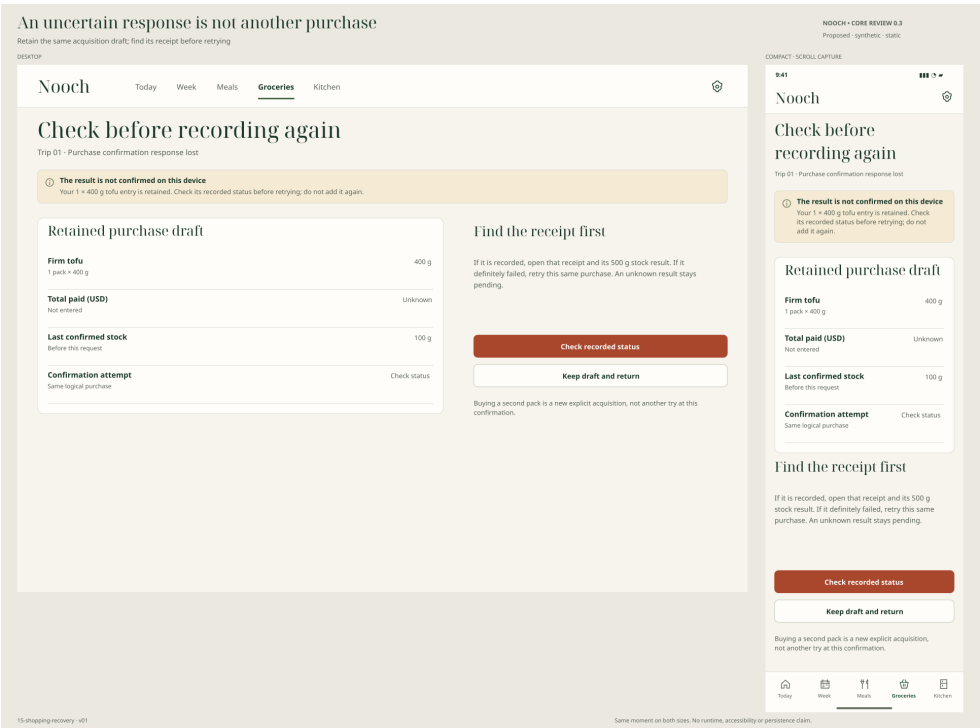

Resolve an uncertain acquisition before retrying. Keep actual purchase records and stock amounts distinct.

PROPOSED TARGET NDL003 core 30 at v01; Today v02 separately retained; accepted behavior selections take precedence.

OVERVIEW SCALE Click any image or its source link for full-resolution paired UI evidence. This PDF does not record owner pixel acceptance.

shopping-recovery@v01

An uncertain response is not another purchase - Retain the same acquisition draft; find its receipt before retrying

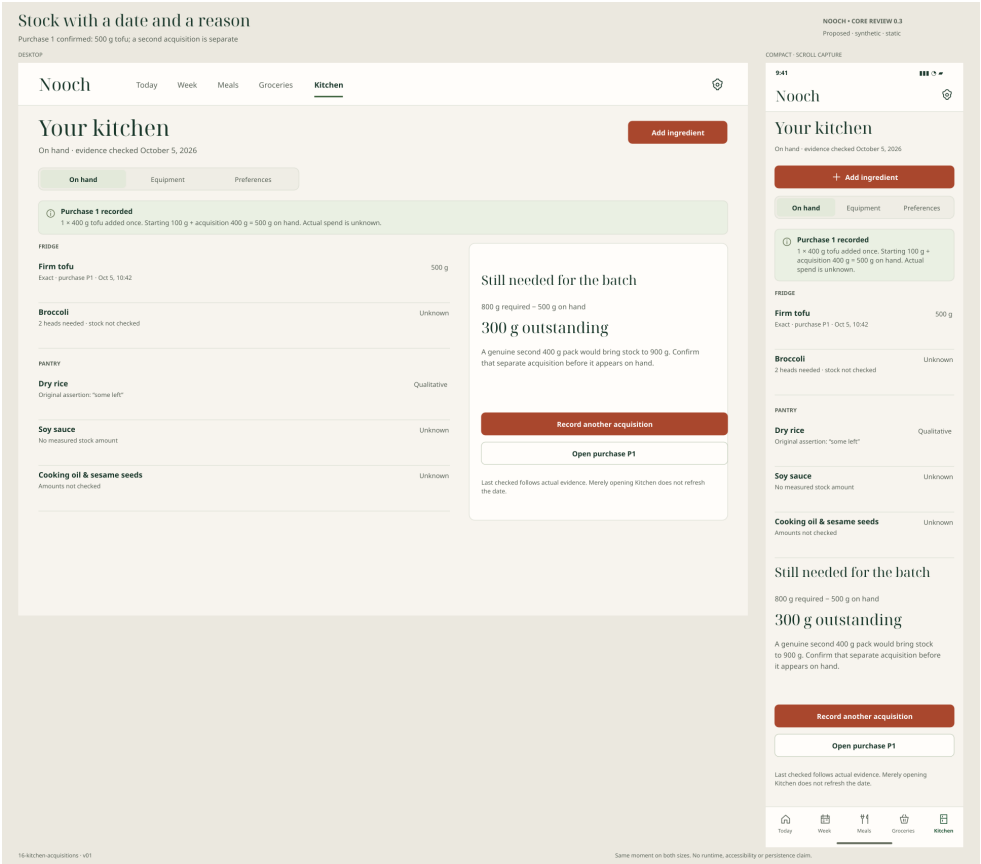

Open original paired image

SHA256 dfe3722203ddf5aefd8...

kitchen-acquisitions@v01

Stock with a date and a reason - Purchase 1 confirmed: 500 g tofu; a second acquisition is separate

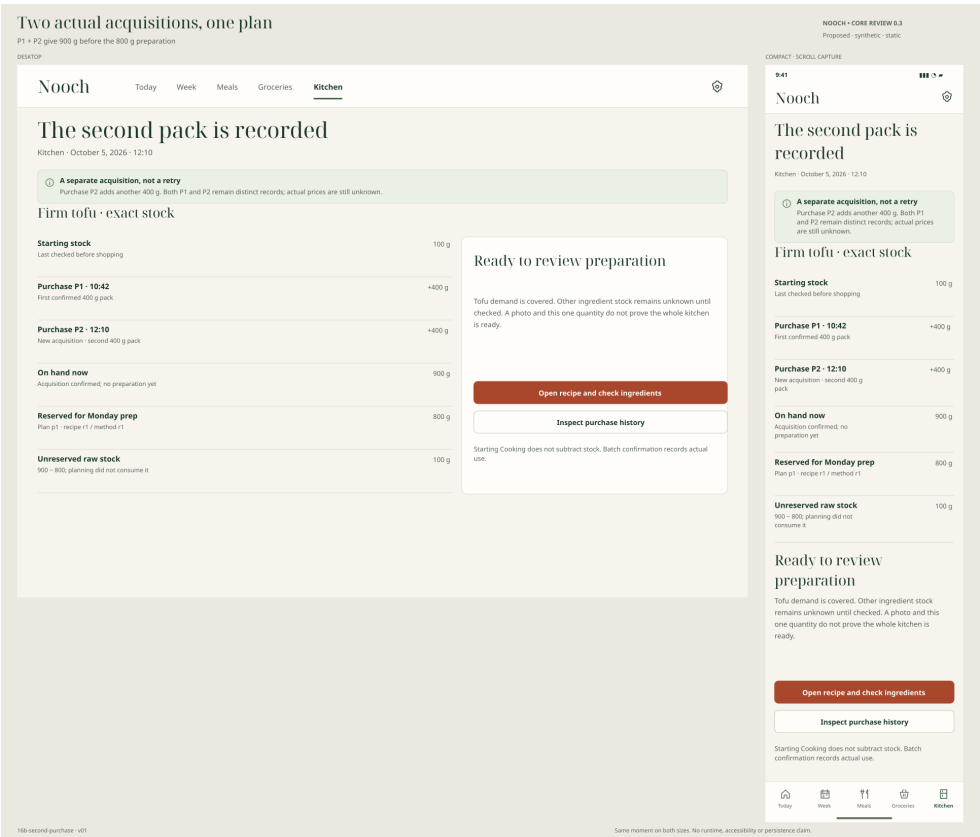

Open original paired image

SHA256 4af12dee829af672de74...

second-purchase@v01

Two actual acquisitions, one plan - P1 + P2 give 900 g before the 800 g preparation

Open original paired image

SHA256 b981ec5557f00834cf40...

Nooch core visual target

09 Handle branches and resume cooking

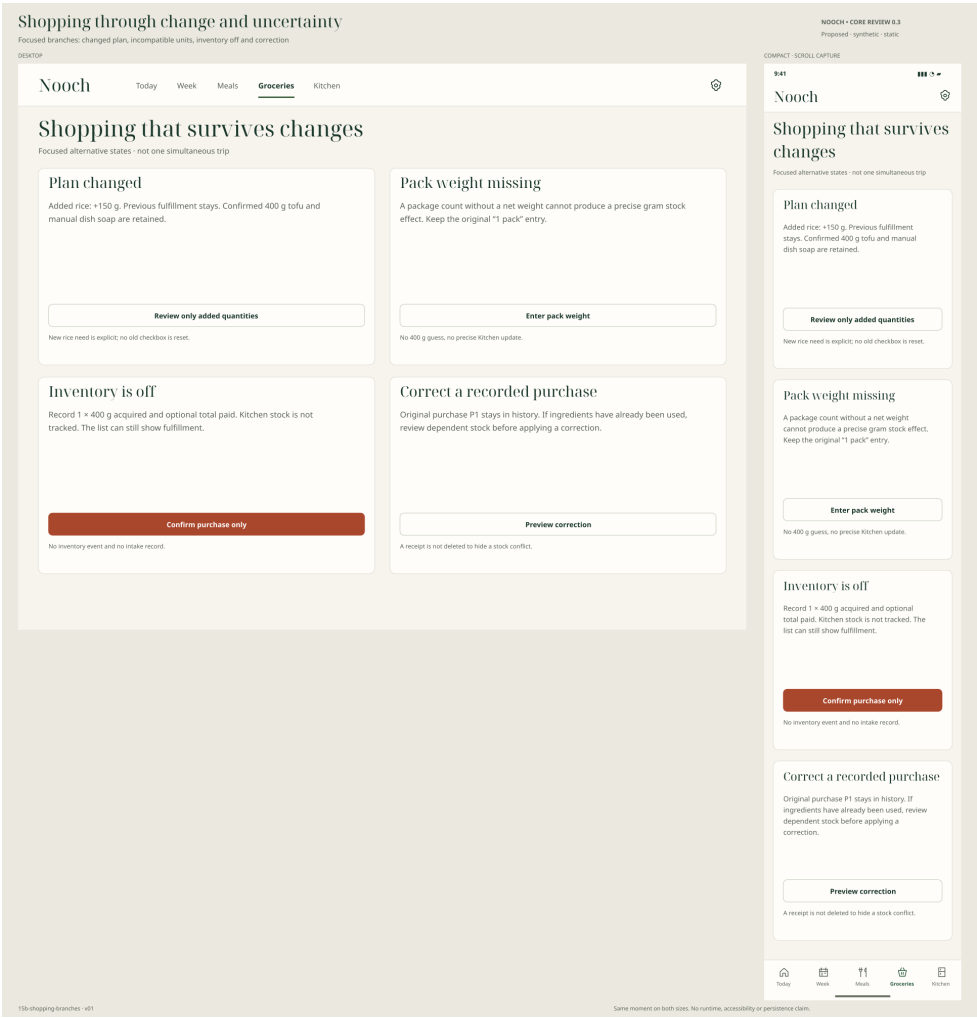

Shopping branches expose uncertainty; cooking restores its session, explicit completion and independent timer actions.

PROPOSED TARGET NDL003 core 30 at v01; Today v02 separately retained; accepted behavior selections take precedence.

OVERVIEW SCALE Click any image or its source link for full-resolution paired UI evidence. This PDF does not record owner pixel acceptance.

shopping-branches@v01

Shopping through change and uncertainty - Focused branches: changed plan, incompatible units, inventory off and correction

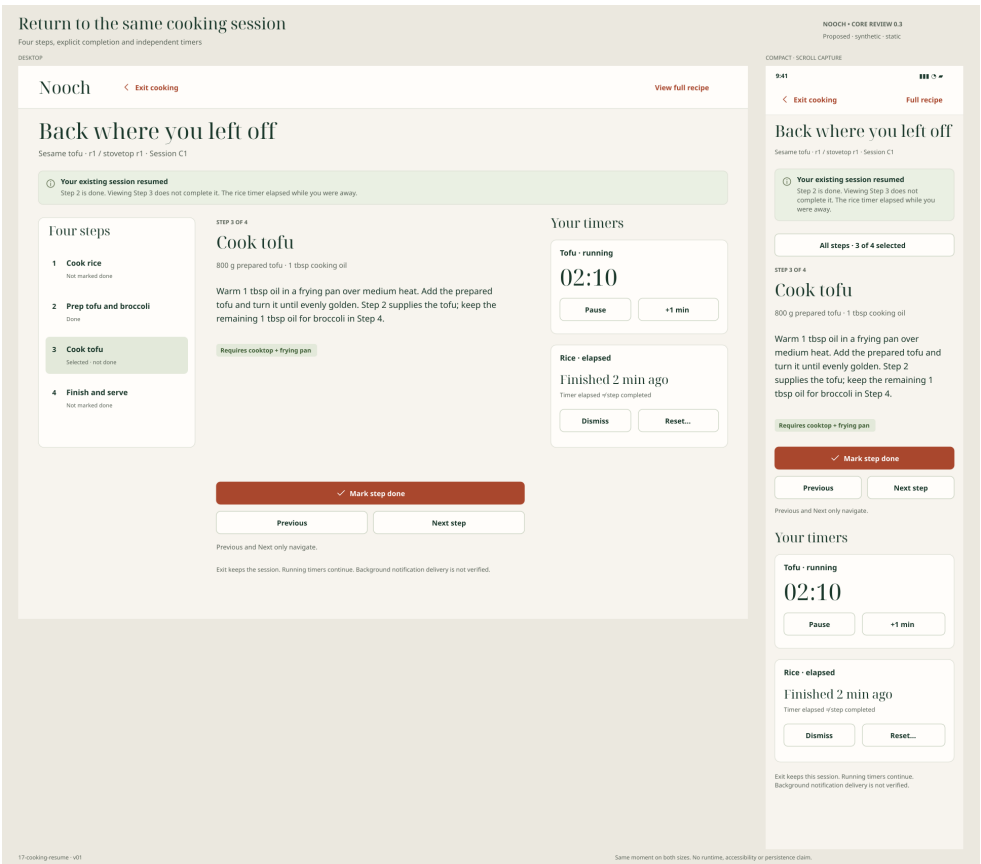

Open original paired image

SHA256 089738a25c1211681d05...

cooking-resume@v01

Return to the same cooking session - Four steps, explicit completion and independent timers

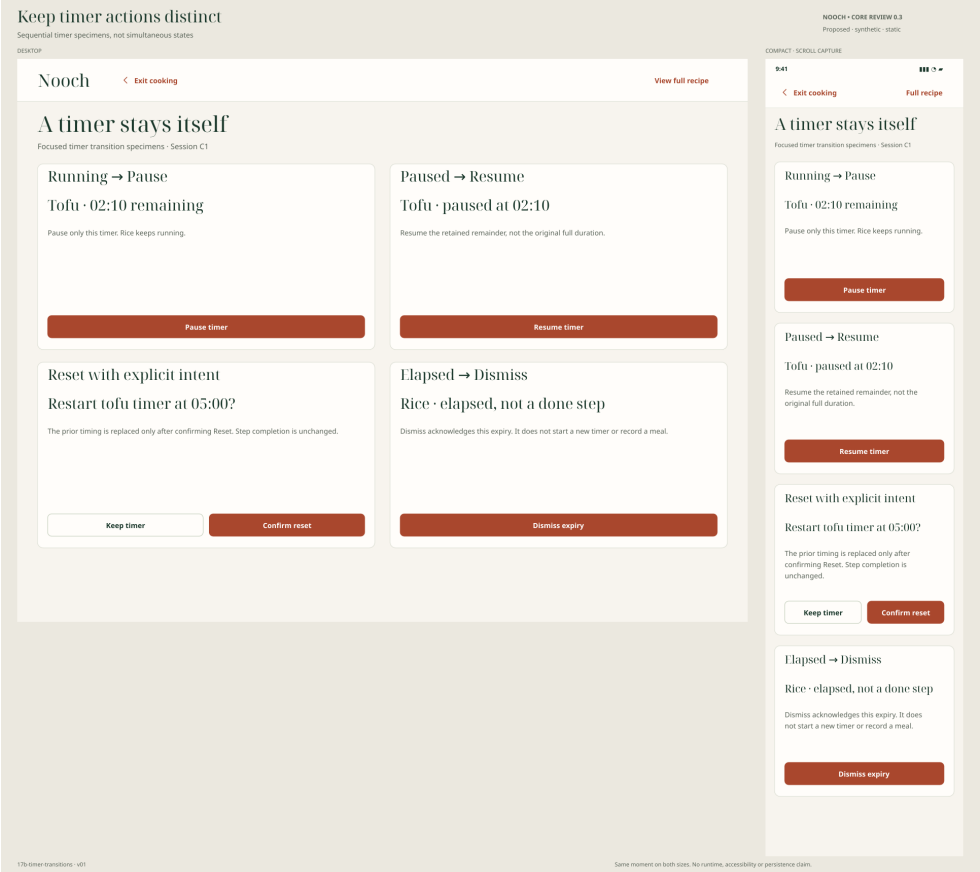

Open original paired image

SHA256 6ee75e46b87c760ed862...

timer-transitions@v01

Keep timer actions distinct - Sequential timer specimens, not simultaneous states

Open original paired image

SHA256 fadb1198a2339862d334...

Nooch core visual target

10 Finish and correct recorded outcomes

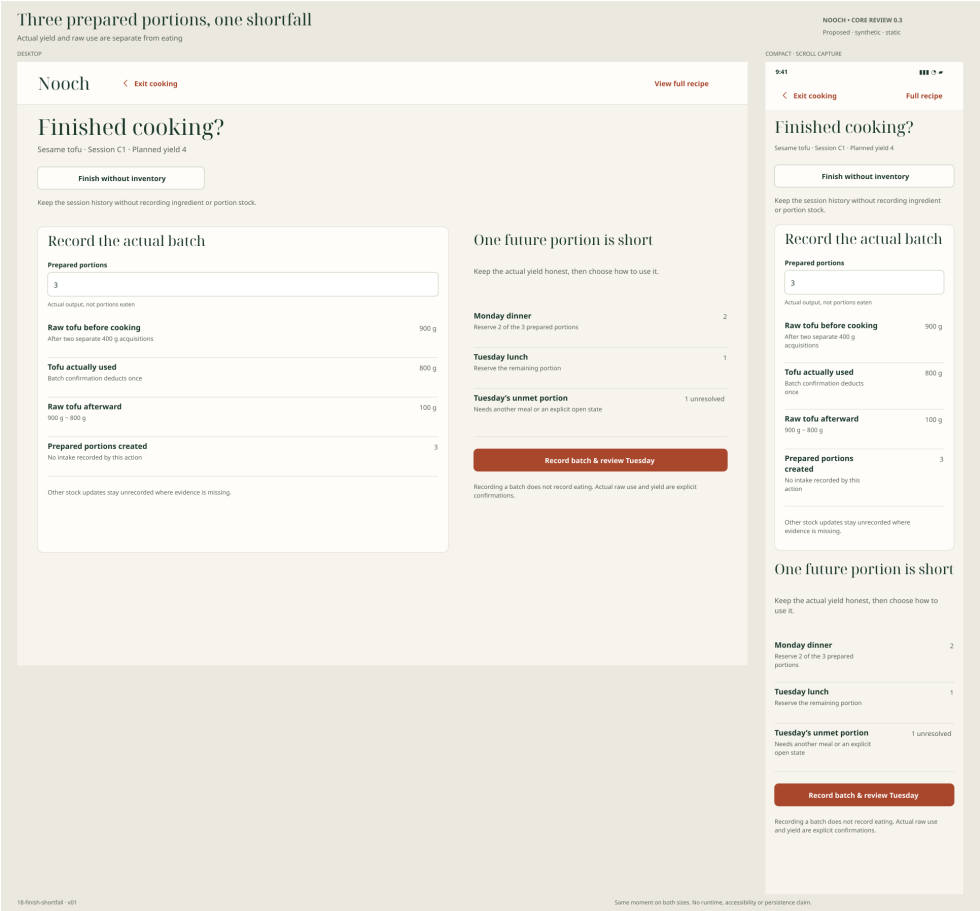

Separate preparation yield from eating and scoped intake corrections. The numeric specimen is a separate source fixture.

PROPOSED TARGET NDL003 core 30 at v01; Today v02 separately retained; accepted behavior selections take precedence.

OVERVIEW SCALE Click any image or its source link for full-resolution paired UI evidence. This PDF does not record owner pixel acceptance.

finish-shortfall@v01

Three prepared portions, one shortfall - Actual yield and raw use are separate from eating

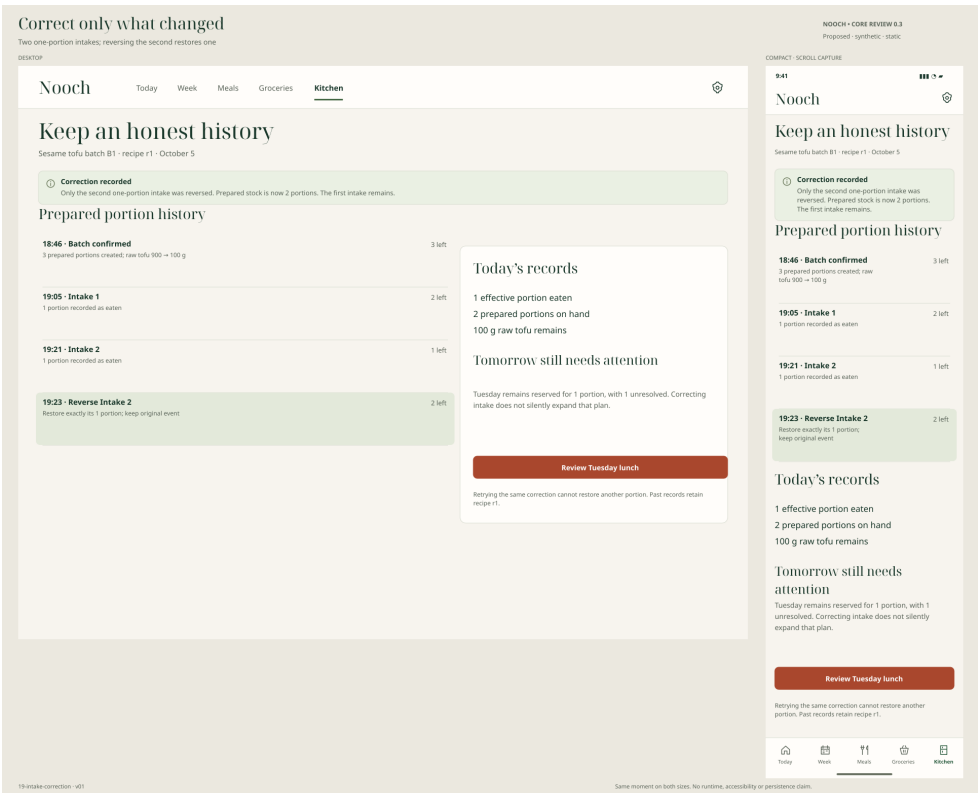

Open original paired image

SHA256 b7b8d42c03014450c6e3...

intake-correction@v01

Correct only what changed - Two one-portion intakes; reversing the second restores one

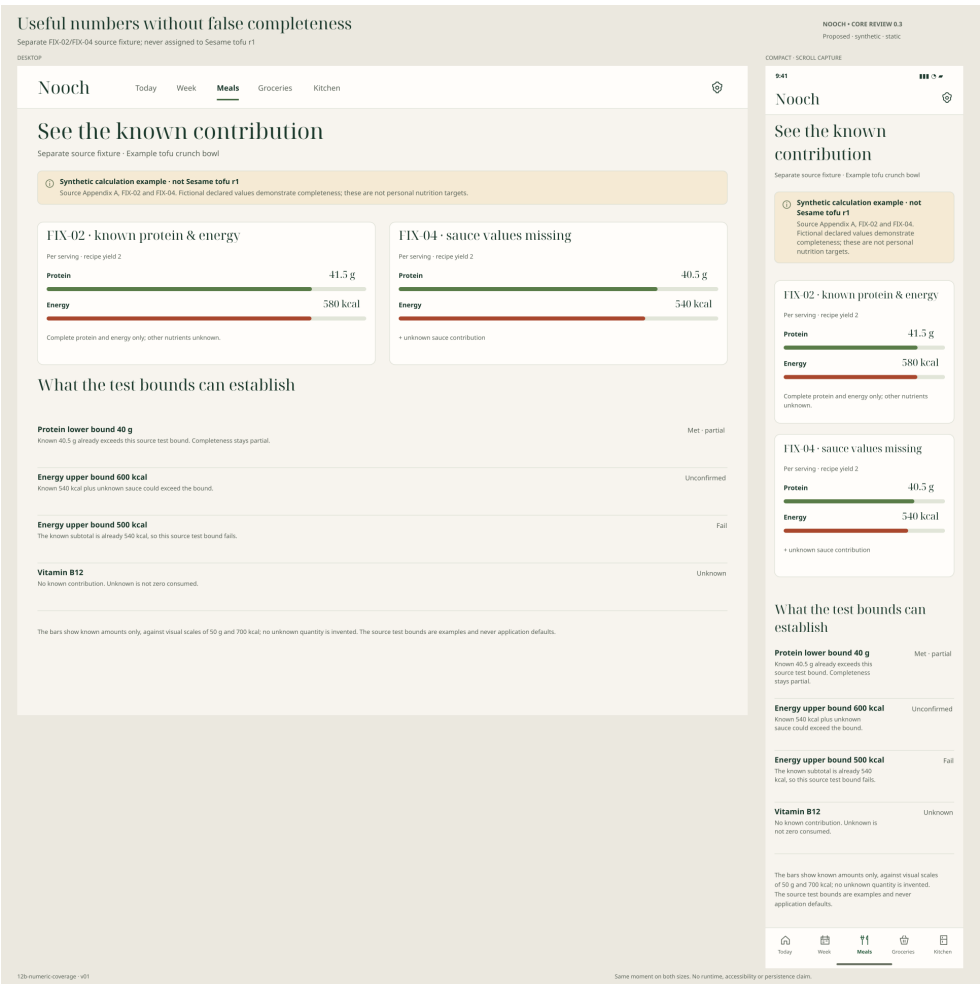

Open original paired image

SHA256 c241ff21491d5bafdf2b...

numeric-coverage@v01

Useful numbers without false completeness - Separate FIX-02/FIX-04 source fixture; never assigned to Sesame tofu r1
